

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE AMERICAN NATURALIST

A MONTHLY JOURNAL
DEVOTED TO THE NATURAL SCIENCES
IN THEIR WIDEST SENSE

CONTENTS

	PAGE
I. Studies on Reactions to Stimuli in Unicellular Organisms Dr. H. S. JENNINGS	373
II. Vacation Notes. II. The Northern Pacific Coast Professor DOUGLAS H. CAMPBELL	391
III. Is the White River Tertiary an Æolian Formation? W. D. MATTHEW	403
IV. Ovum in Ovo Professor F. H. HERRICK	409
V. On the Habits and Structure of the Coccid Genus <i>Margarodes</i> Professor T. D. A. COCKERELL	415
VI. Editorial Comment: The Gypsy Moth and Economic Entomology; Zoö- logical Instruction in German and American Universities; Aberrant Birds' Eggs; Are Bird Migrations Affected by an Extreme Southern Winter?	419
VII. Reviews of Recent Literature: <i>Anthropology</i> : The Neolithic Period of Human Culture in Northern Africa; Prehistoric Art; The Lamp of the Eskimo; Chess and Playing Cards; The Huichol Indians of Mexico; <i>Anthropological Notes</i> — <i>General Biology</i> : Professor Ewart's Mares; Common Salt a Plant Poison; Physics and General Biology; The Plankton of the Limfjord — <i>Physiology</i> : Ocular Accommodation; The Sense of Hearing; Physiology for Schools; Overton's Physiology; Animal Hypnotism — <i>Zoölogy</i> : Generic Names Preoccupied; Deep-Sea Fishes of Iceland; <i>Spolia Atlantica</i> ; Fishes of New South Wales; Fresh-Water Ostracoda of South America; New Flagellata from the Rhine; Pond Infusoria; Variation in Veneridæ; Distribution and Variation; Zoological Results of Dr. Willey's Expedition; Distribution of Perissodactyla; Recent Papers on Sipunculids; The Palolo Worm; Is Fertilization a Process of Feeding? Zoölogical Notes — <i>Botany</i> : Vines's Text-Book; The Teacher's Leaflets; Elementary Science Bulle- tins; Water-Lenticels; Root-Tubercles of Alder; The Red and Blue Coloring Matter of Flowers; Botanical Notes	423
VIII. News	455
IX. Publications Received	460

THE AMERICAN NATURALIST is an illustrated monthly magazine of Natural History, and will aim to present to its readers the leading facts and discoveries in Anthropology, General Biology, Zoology, Botany, Paleontology, Geology and Physical Geography, and Mineralogy and Petrography. The contents each month will consist of leading original articles containing accounts and discussions of new discoveries, reports of scientific expeditions, biographical notices of distinguished naturalists, or critical summaries of progress in some line; and in addition to these there will be briefer articles on various points of interest, editorial comments on scientific questions of the day, critical reviews of recent literature, and a final department for scientific news and personal notices.

All naturalists who have anything interesting to say are invited to send in their contributions, but the editors will endeavor to select for publication only that which is of truly scientific value and at the same time written so as to be intelligible, instructive, and interesting to the general scientific reader.

All manuscripts, books for review, exchanges, etc., should be sent to THE AMERICAN NATURALIST, Cambridge, Mass.

All business communications should be sent direct to the publishers.

Annual subscription, \$4.00, net, in advance. Single copies, 35 cents.
Foreign subscription, \$4.60.
